OFFICE ORDER

As per the proposed programme by the MoWR, RD & GR 'Hamara Jal-Hamara Jeevan' the following officers are appointed as Nodal Officers from the CWC:

S N	State	Name & Designation of Nodal Officer
1.	Andhra Pradesh	Shri M Ramesh Kumar, Superintending Engineer, Krishna Coordination Circle
2.	Telangana	Shri ORK Reddy, Superintending Engineer, Godavari Circle

Similarly various Officers of CWC working under this organisation from different locations spanning throughout the Andhra Pradesh and Telangana states are also appointed as 'Co-Ordinators' for each district. The list of appointed coordinators are enclosed as Anex-I for Telangana and Annex-II for Andhra Pradesh.

All Co-ordinators are hereby instructed to coordinate with the respective District Collectors in order to constitute a District level Committee, identify a water stressed village (either due to scarcity/excess) and initiate/conduct the programme in their districts any day between the stipulated dates as mentioned in the enclosed 'Programme Proposal' which was received from MoWR and the progress of the programme should be intimated to the concerned Nodal Officers as and when required. On successful completion of the programme a detailed programme note may be submitted to the concerned Nodal Officer.

(M Ramesh Kumar)
Superintending Engineer(C)

To

All concerned Officers
(As enclosed)

जारी किया गया/Issued

Copy to SE, KCC / GC / Director, M&A / EE, LGD / LKD / UGD / UKD for information with a request to spare the services of the Coordinators.

Proposal for organizing a programme titled

“HAMARA JAL – HAMARA JEEVAN”

HAMARA JAL- HAMARAJEEWAN

1. INTRODUCTION

Hon'ble Minister (Water Resources, River Development & Ganga Rejuvenation) desires that an initiative titled as "**HAMARA JAL- HAMARA JEEWAN**" may be taken up during organization of India Water Week-2015 (IWW-2015). This will be an initiative to engage Scientists, Engineers, Water communities, PRIs, Other stakeholders and NGOs to address the issues of water resources planning at the **local level** and to generate awareness regarding need for water conservation. Each district, as an administrative unit is proposed to be targeted for organizing the event which will be a part of the Central Sector IEC scheme for highlighting the importance and generating awareness about water conservation. A proposal for organizing the event is described in the succeeding paragraphs.

2. EVENT PLAN

Under the programme "**HAMARA JAL- HAMARA JEEWAN**" it is proposed that one day work shop will be organized in each district where Scientists, Engineers, PRIs Water Communities, PHE officers, Agriculture officers, BDOs, Other stakeholders and NGOs will deliberate on issues of water conservation, finding indigenous solutions for meeting the demands and suggesting future road map to manage water for growth. Participation from school students will be an integral part of the programme for sensitizing the next generation for water conservation. This will also spread awareness regarding need to conserve water in the light of growing water scarcity.

State Water Resources Departments are proposed to be made overall in charge of implementing the programme and it is proposed to organise the event in each district during the period 13-17 January 2015 concurrent with the India Water Week-2015 (IWW-2015). The IWW-2015 will be held at New Delhi from 13.01.2015 to 17.01.2015. During the week itself it is proposed that in each State at least 4-5 districts will be covered where the event will be organized. In respect of other districts, the events would be planned to be organized as per programme to be finalized in consultation with State Governments Authorities. It is planned that, all the districts of the country will be covered by end of March, 2015.

3. ORGANISING THE EVENT

For organizing the events in each district it is proposed to constitute committees at two levels. A State level Organizing Committee constituted under the chairmanship of Principal Secretary, Water Resources Department or Engineer-in-Chief of the Water

Resources Department wherein representatives at the level of Superintending Engineer / Director from the field organizations of Ministry of Water Resources, River Development & Ganga Rejuvenation like CWC, CGWB, NWDA etc. may be nominated as Member Secretaries to the Committee. The State level Organizing Committee will be responsible for overall organizations of the events in the respective districts of the State. A List of Nodal Officers who may be designated as Member Secretary to the State level committee for each State is attached as Annex-I.

For organizing the event in each district, District Level Committee to be headed by Collector/DC/DM of the district will be constituted and other members of the district level committee may include subordinate officers of the districts like BDOs, municipal authorities (in case of urban/semi urban districts). Representatives from NGOs / WALMIS working in the districts may also be included as members of the District Level Organizing Committee.

4. FINANCIAL IMPLICATIONS

A fixed amount as indicated in Annexure-II is proposed to be earmarked for organizing the event in each district by the Ministry of Water Resources, River Development & Ganga Rejuvenation. The amount will be released to the nodal officers identified for the state. In each district the amount will be spent by the representative of nodal officer or the district level committee which will be subsequently reimbursed by the nodal officer.

State Water Resources Department will also be requested to mobilize additional funds available with them under their respective schemes.

5. OUTCOME OF THE EVENT

It is planned to prepare a profile for each district covering the following:-

- Source of water
- Utilization for various uses
- Constraints in meeting the requirement
- Possible local solutions for meeting the unsatisfied demands.
- Future roadmap to manage water for growth.

The recommendations received during the deliberations of the work shop will also be used for preparation of an overview of State level recommendations. Such recommendations would enable Ministry to utilize the same for policy making.

ANNEXURE-I

SI.NO.	STATE	NO. OF DISTRICTS	NODAL OFFICER *
1	ANDHRA PRADESH	13	SUPERINTENDING ENGINEER/ DIRECTOR, CWC, HYDERABAD
